Be careful not to get injured during use.</p> <p>(7)Do not use the product after its expiration date.</p> |
| Other | Most halitosis is caused by bacteria in the mouth (Porphyromonas gingivalis) decomposing plaque and generating gas. Porphyromonas gingivalis additionally produces toxins that cause gum swelling and inflammation. Acess Liquid demonstrates powerful antibacterial activity against porphyromonas gingivalis using natural herbal ingredients. In addition, it is effective for various symptoms of periodontitis due to its excellent anti-inflammatory action and ability to alleviate swelling. |
